Sale of Farm.

Sheriff C A Arnold purchased of J M
Orand the farm on which the former
resides, Monday. The place contains
235 acres and the price was \$70, an
acre. The land lies on Lexington pike,
near Marksburg, and is very desirable.

Cases Continued.

In the circuit court, Monday, the
cases against Humber, for killing Pol-
lard, was continued until next court,
on motion of the Commonwealth. The
cases against Jennings, for killing Mil-
ler was continued, on motion of the
defense.

Miss Amanda Anderson and Mrs
John Magee went to Stanford last
week and organized a W. C. T. U., in
that city. The Union has fourteen
charter members, and is quite enthusi-
astic. The Lancaster ladies were
treated royally and enjoyed their visit
very much.

Sells his Farm.

Stanford Journal:—George D Robin-
son has sold to Mrs Jones, of Wayne
county, his magnificent farm of 225
acres, near Hustonsville, at \$80. It is
hoped that Mr Robinson will buy an-
other farm in Lincoln or at any rate
will not move from this county.

Examination for A. & M.

The examination, for appointees to
"Normal Department of A & M Col-
lege of Kentucky, will be held at office
county Supt, September 7 8. Teachers
or persons preparing to teach may be
admitted at rate of not more than
four from each county upon the same
conditions, receive some benefit and
have same privileges as appointees to
the college proper.

Fine Foundation.

The foundation for the new bank is
one of the best ever made in Lancas-
ter, the workmanship being perfect in
every detail. It has been allowed to
"settle" for several weeks, which is a
good idea. Most all the brick and
other material is on the ground, and
the work will be resumed in a day or
so and rushed to completion. All the
outside brick are pressed, and of two
colors.

Meeting Closed.

The protracted meeting conducted
at Hubble by Eld George Gewen came
to close Sunday night. The services
were attended by large congregations
and much interest was awakened in
church affairs. Mr Gewen is an orator
of ability, and his sermons had a tel-
ling effect upon all who heard them.
He has been in poor health for some
time, and this meeting is the first he
has held for several years.

Pleasures of Fishing Destroyed.

While fishing in the lake has been
fine, yet the greatest pleasure and
feature of angling is destroyed by the
fact that there are always a number
of other fishermen in sight and a fel-
low is deprived of the privilege of com-
ing home and telling the usual lie a-
bout "that big one" he hung, but
which got away by breaking the line.
Another distressing drawback is the
fact that it is impossible to take his
jug, as his fellow fishermen would soon
make way with the contents. Either
of the foregoing drawbacks is distress-
ing enough, but when deprived of
both is more than an old-time fisher-
man can stand. The club should get
together and set certain days for just
so many to go.

Graded School Opens.

With the largest enrollment in its
history, the Lancaster Graded School
opened Monday morning. Prof Mannix,
and his able assistants lost no time in
buckling down to business, and today
everything is running as smoothly as if
the institution had been in session for
three months. Prof Mannix has had
wide experience at the business, and
has placed the school in better shape
than it has been since organization.
He is assisted by Miss Bettie Robinson,
of Campbellville, Miss Nannie Oakley,
of Tennessee, Misses Eliza Smith
and Tommie Francis, and Amanda
Anderson, of Lancaster and Miss
Susie Brashear, of Cynthiana. Mrs
Belle Burnside will have charge of the
music department again this year.
These teachers are among the best to
be secured, and the trustees are to be
congratulated upon their selection.
The school is in good condition finan-
cially and starts the sessions work un-
der the most favorable auspices.

Some Fine Fish.

Under the agreement, members of
the Lake Placid Fishing Club began
fishing Saturday, the 1st, and the open
season will continue only through this
month. Members made a break for
the lake at the crack o' day Saturday,
and by six o'clock the banks were lined
with anglers. As the lake had
been stocked with fine fish, some good
ones were caught, many bass measur-
ing fifteen to sixteen inches being
taken. Quite a number of newlights
and some goggle-eyes were also caught.
Under the rules, no member can catch
more than five pounds, and several
were forced to haul in their lines ear-
ly in the action. Each member must
have his certificate card, and can only
invite one visitor. The member must
accompany this visitor on the compli-
mentary card will not pass the man in
charge of the lake. By these strict
rules, the lake will soon be full of fine
fish and the sport splendid. Minnows
were at a premium Saturday, and some
fellow could have coined a bunch of
cash had he been supplied with them.

Still Better Service to Louisville.

It is rumored among railroad men
that another passenger train will be
put on the L & N from Rowland to
Louisville within the next few weeks.
This train will do local work and the
present day trains will only stop be-
tween those points at Stanford, Junc-
tion City, Lebanon, and Lebanon Junc-
tion. This will give a service long
needed, and will be appreciated by the
public.

The Only Laundry in Town.

The only laundry in town where you
can send your laundry every day in the
week and get it back the next. We
have a legion of satisfied customers,
let us add your name to our list. Work
called for and delivered.

son's clothing store. Lancaster, Ky.

Up-To-Date Quarters.

The second story of the Garrard
Bank & Trust Company's building
will be built especially for the Bastin
Telephone Co, and will consist of sev-
eral offices, operating room, work
shop, waiting room, in fact every
modern convenience for the comfort of
the public and the giving of first class
service. Several special booths will
be arranged so the constantly growing
business can be handled with dispatch.
The Bastin company will install new
furniture throughout, and each depart-
ment will be fitted for comfort. Lan-
caster will then have the handsomest
and most convenient telephone offices
in central Kentucky. The Record con-
gratulates the telephone people upon
their enterprise.

Graduates of this College Successful.

Young men and women who are now
forming their plans to attend college
should write at once to Prof Wilbur R
Smith, Lexington, Ky, for Kentucky
University for circulars of his famous
college. At this college Bookkeeping,
business, shorthand, Typewriting
Telegraphy are taught by experienced
teachers.

The demand for his graduates exceed
his supply. This is a responsible col-
lege and of National reputation. Many
clerks, farmer boys and others have
invested about \$95 00 for a business
education at this college for tuition
and board and are now in banks and
other offices. Many of our leading
bankers, officials and Merchants are
graduates of this college. Write now
to Prof Smith for illustrated catalogue
free.

The Labor Problem.

Just at this time we probably hear
more complaint about the help ques-
tion than at any other season, says the
Midway Clipper. This matter seems
to get farther and farther away from
a solution and farmers and housekeep-
ers are well nigh desperate over the sit-
uation. Farm laborers are hard to get
and those who will work want wages
far in excess of their worth. The farm-
er with his crops sadly in need of atten-
tion is willing to pay almost any price
to have them cared for. But there are
mighty few who will help him now no
matter how steep the wages offered.
Cooks are equally as scarce and ineffi-
cient. They all seem to have easier
jobs than bending over the hot stove.
Not long since, a Midway housekeeper
who had been on hunt of a cook went
to a colored woman living in the sub-
urbs seeking information that might
help in her quest. To the question,
"Can you tell me where I can get a
cook?" the ebony sister replied, "No,
I've been lookin' fer one mah self."

Want Franchise for Railroad.

At meeting of City Council, Monday
evening, Mr Burton Vance, of Louis-
ville, made application for franchise to
construct an electric railway through
the streets of Lancaster, for the pur-
pose of making a line from Hubble to
Hickman, or mouth of Sugar Creek, on
Kentucky river. Mr Vance is interest-
ed with other gentlemen in developing
the recently discovered ore, called
barytes, which has been located in
inexhaustible quantities near Hubble,
and has proven to be the best material
for making paint yet discovered. This
ore has been tested by leading chemists
and the paint made therefrom is de-
cidedly the most durable and satisfac-
tory ever made. The idea is to con-
struct this line of road for the purpose
of hauling the ore to Kentucky river
to be shipped on boats, and to haul
coal from there with which to operate
the machinery. As a franchise must
be sold, the city attorney was ordered
to prepare the advertisement and in-
sert same according to law. Mr Vance
stated that his road would come near
the water works and come to town
either over Stanford street, and run
out Lexington pike to Hickman, or
strike "Middleboro" and down the
Sugar Creek road. He had little to say
on this subject, and, as he left immedi-
ately for Louisville, The Record will
have to wait until later to give further
details. This means much to Garrard
county, for if the road is built to elti-
er of places named, it means that a
line to Lexington is a dead certainty.

Lancaster, Ky., September 7, 1906

Some of us are complaining of too much work to do, and a few are grumbling because of its scarcity. All are resting now, except newspaper men, and the following thoughts are submitted. They are from a prominent Bishop and ought to be food for the thoughtful:—"This labor and sweat of our brows is so far from being a curse, that without it our very bread would not be so great a blessing. It is not labor that makes the garlic and the pulse, the sycamore and the cresses, the cheese of the goats and the butter of the sheep to be savory and pleasant as the flesh of the roebuck, or the milk of the kine, the marrow of oxen, or the thighs of birds? If it were not for labor, men neither could eat so much, nor relish so pleasantly, nor sleep so soundly, nor be so healthful nor so useful, nor so strong nor so patient, so noble so untempted."

A sample of Kentucky pride was exhibited in Glasgow a few days ago. A woman and her son begged a dry goods box of a merchant, hauled it to the outskirts of the town and dwelt in it, subsisting upon the contributions of neighbors. She prefers that kind of dwelling and living than going to the poor house.

President Roosevelt greeted some Kentucky visitors the other day by saying: "I am always delighted to meet anybody from Kentucky." Mr Roosevelt is also happy in receiving the citizens of forty-four other states and the several territories.

Fifteen million eggs are reaching the New York market every day. Most of them will spend the summer in storage house resorts, to come forth next winter invigorated and strengthened, for a hard boarding house campaign.

The Boyle County Herald opposes a certain candidate for a state office because it believes he "is stuck on himself." The Cynthiana Democrat adds: That's pretty good. Down with the stickers! Up with the antistickers.

If the custom of reproducing the voice of the deceased at funerals becomes general, woman will be encouraged in her grim battle for the traditional last word.

The Breath of Life.

It's a significant fact that the strong est animal of its size, the gorilla, also has the largest lungs. Powerful lungs means powerful creatures. How to keep the breathing organs right should be man's chiefest study. Like thousands of others, Mrs Ora A Stephens, of Port Williams, O, has learned how to do this. She writes: "Three bottles of Dr King's New Discovery stopped my cough of two years and cured me of what my friends thought consumption. O, it's grand for throat and lung troubles." Guaranteed by R E McRoberts drug-gist, Price 50c and \$1.00. Trial bottle free.

A Kansas Girl Graduate.

A Kansas girl graduate to whom had been assigned the theme "Beyond the Alps Lies Italy," wrote this essay: "I do not care a cent whether Italy lies beyond the Alps or in Missouri. I do not expect to set the river on fire with my future career. I am glad that I have a very good education, but I am not going to misuse it by writing essays or poetry on the future woman. It will enable me to correct the grammar of my lover I may have should he speak of "dorks" in my presence or "seen a man." It will also come handy when I want to figure out how many pounds of soap a woman can get for three dozen eggs at the grocery. So I do not begrudge the time I spent in acquiring it. But my ambitions do not fly so high. I just want to marry a man who can lick any body of his weight in the township, who can run an 80-acre farm, and who has no female relatives to come around and try and boss the ranch. I will agree to cook dinners for him that won't send him to an early grave, and lavish upon him a wholesome affection and to see that his razor has not been used to cut broom wire when he wants to shave. I do not care if I get a little rusty on the rule of three and kindred things as the years go by."

What Causes It.

The baldheaded bachelor editor of the Atchison Globe remarks: "What causes the fires of love to burn too low and gradually die out altogether in so many homes? I'll tell you. It is because the fuel is all bought by one person. Too many men quit courting their wife after the wedding ceremony is performed. Too many men forget the sweetheart after she becomes the wife. Too many wives change their smiles of welcome to faultfindings. Too many wives get that the old man has a few rights left after he becomes a benedict. Too many men fail to keep the wife supplied with a little pocket money. Too many wives forget that hubby has to work hard for what money he has. Too many husbands want to be the whole works around home. Too many wives think the old man don't know how to run his business. There are more happy homes than unhappy ones, because there are more sensible persons than fools. One person can't lug in enough fuel to keep the hearthstone warm. It takes both of them. The fire even then gets pretty low at times, but it won't go out if both of them keep at work. All this is not original with me. I got a part from an old maid who knows all about how children should be raised."

Olympic Theatre, Cincinnati, A Big Success.

The one big event of Cincinnati's Fall Festival was the opening last Sunday of the New Olympic Theatre. A more auspicious theatrical event has not been chronicled anywhere in this country, and when it is taken into consideration that this beautiful modern playhouse is devoted to European and American greater vaudeville, it must be admitted that some thing extraordinary exists in this more fertile of amusement fields. Cincinnati of every rank were there in force at every performance, the masses were interested, and the banker and the preacher rubbed elbows with the street gamin. The toilet worn by the ladies in attendance at the first performance received unusual attention. The surroundings, the furnishings, the everything about the New Olympic is beyond description, like wise the unparalleled talent that Man ager Cleveland presented. He promised the biggest the best entertainment ever seen in Cincinnati, and he kept his word. The enormous crowds appreciated everything.

For week beginning matinee Sunday, September 9th, John W Ran some will be seen in his latest and most lifelike impersonations of Wm. Jennings Bryan. The big novelty feature of course will be Ralph John stone, the acrobatic aerial cyclist that astounded New Yorkers all last season at the Hippodrome. Al Coin's Pantomime Dogs, May Ward, the daintiest soubrette in vaudeville, and W J O'Hearn's big spectacular production "A Romance of Killarney," are all faces and features entirely new to Cincinnati. On the same bill is the Grand Opera Trio, Haley & Meehan, black face singers and dancers; all these together with Filson & Errol and several other big numbers will go to make up a program that will excel last week's bill.

Pain from a Burn Promptly Relieved by Chamberlain's Pain Balm.

A little child of Michael Strauss, of Venon, Conn., was recently in great pain from a burn on the hand, and as cold application only increased the inflammation, Mr Strauss came to Mr James N Nichols, a local merchant, for something to stop the pain. Mr Nichols says: "I advised him to use Chamberlain's Pain Balm, and the first application drew out the inflammation and gave immediate relief. I have used this liniment myself and recommend it very often for cuts, burns, strains and lame back, and have never known it to disappoint. Resolutions Passed by Tri-County Teachers Institute.

We the teachers Boyle, Lincoln and Garrard counties in institute assembled resolved.

1st That we extend our hearty thanks to the people of Stanford for the hospitable manner in which they received us into their homes and for the many courtesies shown us while here.

2nd That the thanks of the institute are due the people of the Christian church for the use of their building and those who have kindly furnished the music.

3rd That we express our regret that owing to the illness of his son. Supt. Singleton was not able to be with us throughout the institute.

4th That our hearty thanks be tendered Hon J M Alverson for his untiring efforts in behalf of education in the General Assembly of Kentucky which resulted in the passage of the law giving pay to teachers while attending institute.

5th That we fully indorse the phonetic method of spelling and make persistent effort to use it in our school, also the many practical ideas given by our instructors, Dr. Roark and Mrs. Olcott.

6th That this institute favors a uniform system of schools for Kentucky, such as is outlined in the August number of the Southern School Journal.

7th That we ask our representative in Congress to use every effort to secure such legislation as will give to Kentucky schools a sum of money equivalent to the average value of land grants given to other States.

8th That we express our high appreciation of the work done by the late Hon R W Miller, of Richmond, for the State Normal Schools, and further that we favor the placing of a tablet to his memory in each of the schools established mainly through his efforts.

9th That we express our appreciation of the efforts of the Kentucky Educational Improvement Commission in behalf of better education in Kentucky.

10th That we heartily endorse the Tri-County Institute as giving us the advantage of better instruction, a greater acquaintance with our fellow teachers and a broader, heartier interest in the great common cause of education.

11th That the institute for 1907 be held in Lancaster at a date not later than Sept. 15.

12th That it is the wish of the institute that the teachers at the joint session be divided into two divisions—the first to include all teachers who have not attended more than one session and attended two or more sessions, and that the work be arranged to suit those divisions.

13th That this institute select a committee of six teachers, two from each county represented, who shall name not more than six institute instructors of high grade, from which the county superintendents are to select the instructors for the coming year.

REVIVAL IN KHASSIA HILLS.

Remarkable Evidence of the Spirit's Power in the Meetings.

Further particulars of the work are given in The Friend of Sylhet at the remarkable annual assembly meeting at Mairang. People came in crowds from all directions; in some cases whole churches, not content that their teachers and deacons should come, came en masse, so that it soon became a problem how to accommodate the thousands in such a small village, situated on bleak and inhospitable hills. The rajah did his part royally. For three days he fed hundreds, and on the Sunday it was reported that 4,000 people sat at meal in his house, and 2,000 in the house of one of his relatives. Each house, Christian and non-Christian, had its full quota. One poor woman, who had reluctantly promised to take five visitors, rejoiced in saying that she had been able to take 40. It was a truly marvelous sight to see the congregation that had gathered on Sunday. The number was reckoned to be about 10,000. The correspondent says: "But if the number of people made us wonder, the sights in the meetings were more marvelous still. It was a time in which the Spirit of God manifested Himself unmistakably. Throughout the assembly one felt in the midst of people who realized the nearness of Jesus Christ. The truth had dawned upon them as Dr. Dale said it came to him one Easter morning—Jesus Christ is alive. In the prayers we heard people conversing with their Saviour, as if they were face to face with Him. These were people who had experienced the joy of salvation. Gladness was the prevailing spirit. To them it was not a mere duty to attend the meetings, but real pleasure, and this pleasure was not due to any excitement. The report of the year told us that 5,000 persons had entered the church since the previous assembly."

SOULS AND TEETH.

Missionary Work in Africa Preaches and Then Pulls Teeth.

Among the many and various items of interest in the speeches given at the May anniversary of the great missionary societies, there can scarcely have been one to surpass what was told by a Wesleyan missionary, lately returned on furlough from Rhodesia. He has been laboring there for 14 years, during which time he has translated the Bible into the Mashona tongue. But his audience in Exeter hall were amused beyond measure when he went on to tell them that there was one thing which, if he did not take it with him in his evangelistic travels, the African natives would miss more than an ordinary English church-goer would miss his minister's sermon if he had forgotten to bring it with him into the pulpit. That was the forceps for extracting teeth. He had found that an indispensable accompaniment in his missionary work. At the end of a service, he would say: "If any of you want your teeth attended to, you must wait behind after the congregation have gone." He had drawn as many as 20 teeth when he had finished preaching the gospel to a crowd of natives. He once said, with his skeptical sneer: "Psychical pain is more easily borne than physical, and if I had my choice between a bad tooth and a bad conscience, I should choose the bad conscience." But here, observes the Record of Christian Work, we have a Christian missionary who is happily able to deal with both.

JAPAN AS TUTOR OF INDIA.

Nation's Victory Over Russia Has Given Her Great Prestige.

Reports from India have indicated the profound effect on the natives of Japan's victory over Russia, and it has been said that Indian youth hereafter, in considerable numbers, instead of going to the colleges in India founded by the English, or to Oxford or Cambridge for their finishing education, would go to Japan's institutions of learning. Certain it is that hereafter there is to be far more intercourse between India and Japan than in the past, and here is proof of it. Rev. Tanaka Harada, pastor of the largest Congregational church in Japan, at Kobe, and Mr. Motoda, of St. Paul's college, Tokyo, have been invited by the India Y. M. C. A. Union to visit India, and speak at university centers on Japan's history and ideals. They are now in India speaking with power from the Christian standpoint.

A Wise Decision.

A regiment of soldiers was drawn up for church parade in the barracks square at Belfast, but the church was being repaired and could only hold half of them.

"Sergeant major," shouted the colonel, "tell all the men who don't want to go to church to fall out on the reverse flank."

Of course, a large number quickly and gladly availed themselves of the privilege.

"Now, sergeant major," said the colonel, "dismiss all the men who did not fall out, and march the others to church—they need it most."

The Immortal John.

"Now, Harold," asked an Evanston teacher, "can you tell me who signed the Declaration of Independence?" "Yes, Miss Blankenship, John Hancock and a lot of other men, but I don't remember their names."

THEIR CRY IS FOR EDUCATION.

Indians of Alaska Want Blessing for Their Children.

The craving of the Alaskan Indians for education is almost pitiable. Ask them what they need and the answer is the same:

"Schools for the children so that they may become smart like the white man."

They are very affectionate people to their children; every benefit is for the child. The older people fully realize the fact that they represent the past. They have always been producers, and their faith that lies before them. To this end they should be provided with day schools in all of the villages of 100 or more adults.

In some sections where the families are distributed over a large area of country and in the case of the children of parents unable to provide for their support, and again where orphans may be enslaved by distant relatives, boarding schools or homes are equally necessary.—Southern Workman.

Singular and Plural.

It is a question of taste and fancy whether one should make two bites of a cherry, but we all really make two bites of the word "cherry" when we use it in the singular. The original English version of "cherries" was "cheris" or "chiris," which was mistaken for a plural, so that "cheri" or "chiri" was soon manufactured as a singular. Exactly so has "pea" come into being as a false singular obtained from the supposed plural and true singular "pease." "Sherry" for "sherris" is another case, and "shay" from "choise," "tease" from "chinese," and "corp" from "corpses," are others in vulgar speech. Similarly, "riches" is really a singular, of which "richesses" was the old plural.

WAS GIVEN UP TO DIE.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured."
